T-PH02 USER GUIDE

Phone holder for sports

Before using the product for the first time, please read through the user guide.

Please use this product correctly after fully understanding the content of the user guide.

The phone holder for sports T-PH02 is the accessory of Takeway T1 Clampod. It is suitable for smartphone at 4~5.7 inches which can be used in a dynamical environment, even there is strong shaking it will not fall off.

- 1 After loosening the bracket screw knob of the sport mobile phone holder, move the mounting bracket to one side. Push the mounting plate slightly outward and insert phone by sliding the phone from the top to the bottom. Move the mounting bracket back over the phone and press down until the mount is completely snug with the phone. Tighten the bracket screw knob and shake lightly to make sure the phone is secured tightly.

** Quick-release clip is nondetachable **

- 2 Use the inner jaw and **F** jaw to clip the tripod on an appropriate position using three-point clamping. After fixing the tripod, shake slightly to make sure it is clamped securely to prevent falling.

- 3 Loosen quick-release knob **A**. of Takeway T1 Clamppod, and remove quick-release clip **B**. Mount the quick-release clip **C**. with T-PH02 on quick-mounting platform **G**, and lock the quick-release knob **A**; using the Ballhead knob **H** to rotate your phone freely in 360 degree. Adjust your phone to an appropriate position and start using or shooting.

Dynamic use(such as:motorcycles, bicycles, scooters, etc.), even violent shaking, your smartphone will not easily fall off, so 3C products have the most solid grip.
